

**WP-1822 HEART LAB  
PATTERN by OTB Patterns.**

Note: this project has several interior lines to give your finished piece character. Carefully start and stop your scroll saw blade following the lines as noted on the drawing. This pattern makes a finished item about 7½" square.

1. Start with a piece of material about 8" or 9" square.
2. Drill 1/16" dia. hole at the end of each line. Use the drill holes to insert blade. When completed, trim all cuts with razor knife and sand with 150 grit sandpaper. Stain or paint as desired.
